

Program Aims To Engage Culture In South Bronx

(Photo courtesy of WHEDco) Part of the assessment process is mapping out Morrisania, which WHEDco continued to do on a block by block basis.

The [Bronx Times](#) has an uplifting story involving *Building Community Capacity*, a program designed to strengthen culture in neighborhoods through art. The Department of Cultural Affairs will be working in a few NYC neighborhoods and in the Bronx they selected Morrisania for their next project.

Two South Bronx organizations, [WHEDco](#) and the [DreamYard Project Inc.](#) will be collaborating with the program in an effort to bring local art and music into the nabe.
